

TENAXFIL WATERPROOF®

TENAXFIL WATERPROOF® is a high tenacity polyester sewing thread developed by Cittadini spa with an exclusive waterproof treatment.

This particular water repellent finishing inhibits the capillary effect of the normal yarns and makes **TENAXFIL WATERPROOF®** particular suitable for the outdoor, sportswear and technical footwear sectors.

TENAXFIL WATERPROOF® is available in a range of different colors and thickness based on the client needs.

Ticket (Nm)	Make-up (standard)
60	6.000 mt
40	4.000 mt
30	3.000 mt
20	2.000 mt

Packaging: box of 12 spools

Main applications:

- Outdoor wear and goods
- Sports footwear
- Tents and camping equipment
- Leather goods and apparel
- Suitcases
- Automotive

Key benefits:

- High degree of water resistance
- High tenacity PES thread
- Excellent abrasion resistance
