

NYLON MULTIFILAMENT TWISTED KNOTTED NET

Multifilament net made of high tenacity UV-stabilised nylon, three-ply twisted, produced with a single or double knot, to guarantee the stability of the mesh even at the highest pulls.

It is produced in its natural colour, but can be sample-dyed in any colour.

To improve performance, it is stretched either lengthwise or depthwise.

It is used in drift net, gill net and trawl net fishing, depending on the rating.

Characteristics:

- Excellent abrasion resistance.
- High resistance to tension.
- Very good handling.

Titles	Mesh size	Net width	Net lenght
210d/1 210d/2,210d/3, 210d/4, 210d/6, 210d/9, 210d/12 up to 210d/400	From 7 mm upwards	Until 700 meshes	Upon request
